

November-December 2008 Newsletter

PackExpo International 2008.

Just in case you missed it. Starview had a successful show. We appreciate everyone that stopped to visit with us and most of all those distributors that referred customers or brought potential clients with them.

Starview's Holiday Schedule.

Starview's production will close at the end of the shift on Friday, December 19th and resume operations on Monday, January 5th, 2009. There will be a limited office staff to provide emergency repair parts as well as new machine and tooling quotations. Some sealing fixtures may be able to be produced during this period as well.

Starview wishes everyone a Safe and Happy Holiday Season.

Starview's CD-ROM Set for 2009.

The long awaited CD set Version 4.0 is now complete. We will begin mailing these out the week of December 15th in zip code order beginning with 00100. Everyone should have these in hand by the second week of January 2009.

Please take the time to browse Disk #1. There is a lot of new information. Disk #2 contains the videos. Nearly all of the videos have been updated since Version 3.0.

As always, we welcome your input about what we can do to add or modify the content of the CD set for the next version. Your comments and suggestions should be addressed to Steve Bates.

Starview to exhibit at MD&M West 2009.

For the first time Starview will be exhibiting at MD&M West in Anaheim, CA. We will be providing additional information in a separate email.

Let Starview assist your customers with machines designed to make the total manufacturing process more effective. Contact one of our sales staff for packaging solutions to help your customers reduce cost and stay competitive.
