

June 2005 Newsletter

Starview Exhibit a success at Eastpack / MD&M East 2005.

We are just beginning to recover from Eastpack / Medical Device and Manufacturing that was held in New York City earlier this month. The show was a success for us.

We appreciated the opportunity to meet with the many distributors and end users that visited our display. We had new versions of the Medical Sealing Machines, Form-O-Matic Vacuum Formers and MRF, RBF & RBFA Food Container Sealing Machine brochures available in the booth as well as copies of our new CD-ROM product presentation.

All of the leads have been responded to by Starview with copies forwarded to our Distributors where applicable. We look forward to the follow up from these excellent leads.

Start planning for Pack Expo Las Vegas September 26, 27 & 28, 2005. We will have more news on this important event in future newsletters

Starview Plant Summer Vacation Closing Schedule.

Starview Packaging Machinery, Inc. manufacturing will be closed beginning Monday, July 18th and will resume production Monday, August 1, 2005. We have chosen this time frame for our summer shut-down since the large majority of our suppliers are closed during this same period.

During vacation period the office staff will be available to provide shipment of emergency breakdown parts orders. The sales department will be fully staffed and available to provide information, quotations and accept orders.

Let Starview assist your customers with machines designed to make the total manufacturing process more effective. Contact one of our sales staff for packaging solutions to help your customers reduce cost and stay competitive.
