EXPERIENCE THE STARVIEW ADVANTAGE:

- A wide range of standard and custom features available to match customer requirements.
- AC Variable frequency precision cam index rotary table drive for smooth table operation and position repeatability.
- Standard Lid feeder and finished package unloader on RBFA models and optional finished package unloader on RBF models increase the machine versatility and lowers labor costs.
- Uses quick-change anodized aluminum tooling.
- Convenient touch screen controls for operator convenience, accessibility and process repeatability.
- A Starview exclusive remote access via standard Ethernet hardwire or optional Wi-Fi router gives management access to real-time process information from the machine.
- Starview's exclusive selectable sealing station program allows the use of one (1) through six (6) sealing fixtures with operator selected start position from HMI.
- Stainless steel wash down construction to allow cleaning in a food handling environment.
- Industry leading design, construction, features and customer support.

DESCRIPTION:

Starview's RBF & RBFA Series rotary type heat sealers are designed for medium to higher volume production requirements. These machines are designed for producing all board heat sealable food containers. **RBF & RBFA Series** machines may also be used for conventional carded blisters, full face blisters and half-clamshell styles as well as applications using Tyvek, foils and other heat sealable lidstock. The **RBF & RBFA Series** units are available in six (6) station designs with a standard sealing area of 15 x 20 inches. Other sealing areas are available on request.

The standard **RBF Series** machines have one sealing station with the remaining 5-stations used for tray loading and unloading. The **RBFA Series** machines feature one sealing station, one lid feeding station and one finished package unloading station with the remaining three-stations used for tray loading.
