- Industry leading design, construction, features and customer support.

DESCRIPTION:

Starview's FAB/PH Series rotary type heat sealers are designed for medium to higher volume production requirements where automatic feeding and unloading is desired. These machines may be used for conventional carded blisters, full face blisters and half-clamshell styles as well as applications using medical paper, Tyvek, foils and other heat sealable lidstock. The FAB/PH Series units are available in six (6) and eight (8) station designs. Models are available in standard sealing areas of 14 x 18 inches and 18 x 24 inches. Larger sealing areas are available on request.

For machines with larger sealing areas, additional loading stations or automation that requires linear motion please consider Starview's CBS/PH Series inline conveyor machines.
