EXPERIENCE THE STARVIEW ADVANTAGE:

- A wide range of standard and custom size machines available to match customer requirements.
- Simple controls for ease of operation.
- Manual film clamping frame operation does not require compressed air.
- Machines utilize industry standard film widths to facilitate film sourcing.
- Industry leading design, construction, features and customer support.

DESCRIPTION:

Starview's MSP Series skin packaging machines are designed for low volume applications. They incorporate a stationary heating system with instant on/off heaters, which come up to heat instantly during cycles and turn off for loading/unloading. The MSP skin packaging machines have timer control for precision repeatability and an accurate turbine regulator. The MSP Series is available in the standard size 12 by 18 inches and 18 by 24 inches. For larger machines with additional automation and higher levels of production please consider our SP, SP/IR and ASP Series.
